

STEM Summit VI: Ensuring the Pipeline

had the following strands:

Diversity – Advancing Diversity and Access in STEM and Recruitment & Retention of Underrepresented Students in STEM

District-Level STEM Planning

Wingspread – Immersion in STEM through Teaching Innovation

Career Awareness – Life Science Career Development Initiative and Middle School Initiatives

Resources from Informal Education – Thinking Outside the Classroom, Opportunities for Educators and Students and Classroom Resources for Students and Teachers

Building STEM Teacher Capacity – An Interactive Session Showcasing Innovative Approaches to Professional Development

STEM Education and the Future of the Massachusetts Economy – An Open Discussion

Concurrent Meeting: Tapping Massachusetts' Potential Step II: Advancing the STEM Movement Through A Leadership-Employer Alliance

In addition to comments from Secretary Paul Reville, Commissioners Richard M. Freeland, Mitchell D. Chester, and Sherri Killins, the Keynote Speech was presented by Lt. Governor Timothy Murray and the luncheon speaker was Sarah Doherty, Senior, Marlborough High School, 1st place award winner at the State Science & Engineering Fair at MIT.
