Build It, Learn It, Share It

K-12 MAKER WORKSHOPS at MIT, FALL 2018 Makerspace Tools, Skills, & Operations for Educators

One-day workshops for educators to

- set up school Makerspaces
- develop technical skills
- learn effective ways to use Maker tools with students in grades K-12

The workshops are appropriate for teachers with tools and materials ranging from portable carts to fledgling makerspaces to full-blown shops.

No experience required, beginners are welcome!

See course details and sign up at edgerton.mit.edu/k-12/makerspaces
